***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: the prior arts of record fail to teach an analog-to-digital converter that comprises: a sample-and-hold circuit which samples and holds an input analog potential in a first period, and in a second period generates a signal indicative of a magnitude relation between the held input and a reference potential; a plurality of amplifiers connected to the sample-and-hold circuit; and, a control circuit which controls timing of the amplifiers to make at least one amplifier start operating in a middle of the first period.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
